

Building sustainable workplace wellbeing across healthcare: CEIH Framework

Strengthen leadership and governance

- Embed workplace wellbeing into governance structures.
- Enable collaborative leadership and accountability for sustainable improvement.

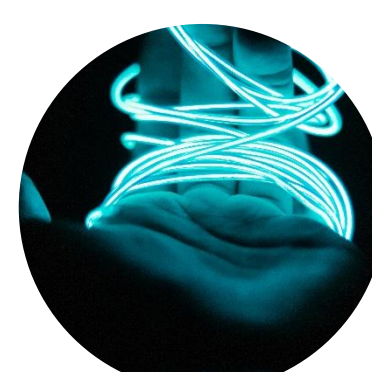

Mobilise capacity to drive action

- Activate and align existing capacity and resources.

Create actionable data insights

- Use consistent, evidence-based metrics and lead indicators to identify emerging risks, inform decision-making, drive proactive action and monitor intervention effectiveness.

Build leadership and organisational capability

- Strengthen leadership capability to create healthy, sustainable workplaces.
- Enable contemporary, evidence-informed approaches to workforce wellbeing, risk prevention and continuous improvement.

Co-design sustainable solutions to redesign the future of work

- Empower teams to co-design healthy and safe systems of work.
- Integrate workforce wellbeing into operating systems to create healthy, safe and sustainable ways of working.
